Education

Kakinada Institute of Engineering & Technology | 2022 – 2025

- Diploma in Computer Science Engineering (CSE)
- Percentage: 68.40

Skills

- Frontend: HTML, CSS, JavaScript
- Framework: Bootstrap
- Backend: Python, Django
- Database: MySQL
- APIs: REST API Development, JSON, Authentication, End-to-End Integration
- Tools: Git, GitHub, VS Code, Postman, MS Office

Projects

E-Commerce Web Application ([Git Link](#))

I developed a full-stack shopping platform with secure user login, REST APIs, and payment integration using Django and MySQL. My role involved creating user interfaces and linking those frontend files to the Django framework. Additionally, I worked on optimizing database structures and enhancing the API performance to streamline the checkout process. This project was a collaborative effort, developed alongside another team member, and I contributed to the successful launch of the platform within the Django framework.

Job Hub ([Project Link](#))

Built a responsive job listing website using HTML, CSS, and Bootstrap with search filters, structured job cards, and full browser compatibility for seamless navigation.

Online Gaming Platform ([Project Link](#))

Created a mobile-friendly gaming website using HTML, CSS, and Bootstrap featuring an interactive UI and adaptive layout as part of a certified front-end program.

Certifications

- Python Programming Foundation — [Certificate Link](#) (February 2025)
- Building Responsive Websites (Bootstrap, Flexbox) — [Certificate Link](#) (August 2025)
- Building Static Websites (HTML, CSS, Bootstrap) — [Certificate Link](#) (November 2023)
- Live Project at Mr-Techlogies (Medha- Rubiks)— [Certificate Link](#) (July 2025)

Internship Experience

Resume Builder ([Git Link](#))

Created a web application using Django to let users design, modify, and download resumes interactively. Built form logic, data management, and dynamic templates through Django models and views for an efficient user flow.
